Dear Dr. O'Keefe,
I am writing to you regarding my son, Ethan, who is currently in the hospital at UVA. He has been diagnosed with a brain tumor and is currently undergoing chemotherapy. He is currently in the pediatric oncology unit at UVA.
I would like to request that you please consider Ethan for the clinical trial for the new drug, ATR-101. This drug is currently being tested at UVA and has shown promise in treating brain tumors. I would appreciate any information you can provide me about this trial and whether or not Ethan would be eligible to participate.
Thank you for your time and consideration.
Sincerely,
[Signature]
